> **Break into the industry via the program that produces Academy Award winning animators.**

Professional, hands-on instruction and creative freedom

In our Animation degree program, you'll learn from industry professionals, using the same techniques and tools that you'll eventually need in the workplace. Using state-of-the-art software and hardware, you'll create your own stories, designs, characters and layouts, and produce your own films.

From story pitch to finished film

Sheridan's animation program emphasizes classical principles of animation in a variety of forms, including 2D digital, 3D and stop motion. You'll learn the art of storyboarding and hone your life drawing, layout and digital painting skills. Working collaboratively or individually on productions, you'll have the opportunity to explore all aspects of animation filmmaking.

Career connections

After Year 3, you'll gain professional experience during a three-month work placement. And at our annual Industry Day, employers will fly in from across North America to meet you, see your work and conduct interviews.

Career Opportunities

Employers regard our animators as the cream of the crop; Sheridan graduates routinely go straight to work for top-flight studios and firms in feature films, television animation, gaming and advertising.

Sample portfolio instructions for reference purposes only are also available.

Applicant Selection

Eligible applicants are selected based on previous academic achievement (the average of their six highest senior-level credits, including the required courses listed above), plus the results of their portfolio.

Applicants who do not meet the admission requirements for this program may be advised individually regarding other related programs.

English Language Proficiency

All applicants whose first language is not English must meet Sheridan's English Proficiency Requirements.

Progression Policy

Academic progress in the program is based on meeting the requirements of an internal academic policy that outlines course and program grade standards, as well as pre- and co-requisites. This policy is distributed to students at the commencement of the program.

Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies or other educational institutions).

Refer to the website for full admission requirements.
