Honours Bachelor of Health Sciences – Kinesiology and Health Promotion

Honours Baccalaureate Degree | 4 years
Davis Campus (Brampton)

Harness the power of human movement to improve health and performance.

A multidisciplinary approach to kinesiology

Learn how the science of human movement relates to all aspects of health and performance. You'll study exercise science, physiology, biomechanics, nutrition and more — all in small classes with professors who know your name. This is also the only kinesiology degree in Ontario with a focus on health promotion, giving you the skills to lead public health campaigns and wellness initiatives.

Applied learning supported by cutting-edge technology

Apply your learning using the latest technologies and equipment! Sheridan is the first postsecondary institution in Canada to embed HoloAnatomy mixed reality software in its kinesiology programming, supporting you in challenging courses such as anatomy and physiology. Other state-of-the-art spaces you'll work in include our Athletic Therapy Centre, Exercise Intervention Centre and VO2 Max Lab.

Pursue sought-after certifications

Within this program, you'll have opportunities to pursue your Certified Personal Trainer and Clinical Exercise Physiologist certifications. When you graduate, you'll meet the College of Kinesiologists of Ontario (COKO) core competency requirements to become a Regulated Health Professional. You'll also qualify for post-graduate training at colleges and universities across North America.

Career Opportunities

The Honours Bachelor of Health Sciences – Kinesiology and Health Promotion program provides graduates with skills that are highly valued by employers in health and performance-related careers.

YOU MIGHT FIND JOBS SUCH AS:

Registered Kinesiologist
